

Yamal-601 at 49°E Satellite details

Orbital Position: 49°E

Manufacturer: Thales Alenia Space

Launch date: 30 June 2015 (estimated)

Launch vehicle: Proton M

Expected lifetime: 15+ years

Note: The Yamal-601 satellite will replace the Yamal-201 that will retire in 2015.

Communications Payload

	C-Band	Ku-Band	Ka-Band
Active Transponders:	18 (circular)	19 (linear)	26
Transponder Bandwidth:			
TWTA Size:			
Coverage:	Extended coverage of Europe, Middle-East, South- & South-East Asia, North Africa		

Yamal-601 Satellite Footprint C-, Ku- & Ka-band
